

SOUTH ELMHAM AND DISTRICT LOCAL HISTORY GROUP

PROBATE INVENTORIES FROM ILKETSHALL SAINT LAWRENCE

Saint Lawrence Church on its levelled site overlooking Stone Street

Introduction

Probate inventories were lists of the moveable possessions of the recently dead, produced by local men under oath and presented to the appropriate ecclesiastical court with the will by the executrix or executor. These inventories were mandated by the probate courts from 1526 until the late eighteenth century. Without them probate would not be granted and the will of the testator could not be acted upon.

Now, more than four hundred years after they were written these documents give us insight into domestic interiors, farming, shop keeping, and rural trades. Each room is usually named and its contents listed. In addition, farm animals, farming equipment and tools of various trades are recorded. All these details are linked to the name of the deceased person; the name of the property never appears, but the number of rooms gives an impression of its size.

The Inventory Group of the South Elmham and District Local history Group have met at monthly intervals over seven years. Initially set up by the late Audrey McLaughlin we have puzzled over photocopies of microfilm, photographs of microfilm and photographs of original documents. In this publication we present our transcriptions beside the clearest copies of the original documents, the oldest first.

Most of the originals are held at The Norfolk Record Office in Norwich the remainder in The Ipswich Record Office.

There is an alphabetical list of all the names. Personal names are often the most difficult to transcribe and here reference to copies of the original inventories may help. We have made a glossary of words no longer in use with the help of 'A Researcher's Glossary of words found in historical documents of East Anglia' by David Yaxley and other reference books, for each parish. The spelling of all words varies greatly.

Membership of the group has been as follows:

Janet Fisher
Basil Harrold
The late Stella Harrold
Judith Ions
The late Audrey Mc Laughlin
Susan Riseborough

Statement on Methods Used

The length of the project and change in personnel has resulted over time in some variance of method. However, the following conventions have been followed in most cases:

1. Contractions are expanded using brackets – gent(leman).
2. Roman numerals are converted to Arabic.
3. Values are tabulated to £ s d so that 14d becomes 00 01 02, even when these values are not tabulated in the original.
4. Numbers written in full are treated like any other word – fyve remains fyve.
5. Spelling is not corrected.
6. (-----) denotes something we have been unable to transcribe.
7. ^-----^ denotes an insertion above the line.
8. [] denotes words missing through damage etc.
9. [? -----] is used to suggest a possible transcription when the meaning is not obvious.
